

Ultra thin FPV 20 pin HDMI flat slim ribbon cable

Description:

FARSINCE ultra slim flat HDMI FPV ribbon cable is ideal for Multi copter Aerial Photography Typical application: connect your video device with HDMI port to video device with standard HDMI input. When the cable is too stiff, it may affect the gimbal performance, especially for those lightweight gimbals. This cable is a very soft, specially oriented brushless gimbal application, suit for cameras with HDMI ports. We offer HDMI Type A, C, D, male to female any direction, You can freely combine whatever you want...
