USB 3.1 Type C female to female Panel Mount Cable

Description：

Merging two USB Type C cables to facilitate panel connectivity has never been simpler.

This setup enables secure source location connectivity for you. And its short length and deliberate design contribute to its minimal signal loss.

With a transfer rate of up to 10 Gbps, the USB C panel mount extension cable can easily connect to any USB device.

Equipped with foil and braid shielding, it offers total protection against EMI/RFI interference, while its twisted pair design aids in reducing crosstalk, ensuring high-speed and error-free data transfer.
