

Type C Male to Female Panel Mount USB 3.1 Extension Cable

Description:

Our cable is the ideal solution for connecting two USB Type C cables through a panel, offering you a secure way to provide connectivity from a confined source.

And with its concise design and limited length, it ensures minimal signal loss.

With its quick and effortless attachment to any USB device, this USB 3.1 extension cable offers a transfer rate as high as 10Gbps.

A 90-degree angled connector is a standout feature, offering effortless port access, reducing strain at the connection point, and preventing possible damage to the cable and port on your devices.

Item no. FSP2001

Specification:

- Connector 1: USB 3.1 Type C male
- Connector 2: USB 3.1 Type C female with screw locking
- Gold plated contact, Nickel plated shell
- Nut and Screw type: #4-40 nickel plated
