

VGA HD15 Cable Female to Female

Description:

FARSINCE High Quality VGA Female to Female panel mount Cable is perfect for combining two VGA cables to achieve connectivity through a panel. This allows the user to provide display connectivity from a source that is contained within a secure location. The cable is short and designed for minimal signal loss. It transmits both audio and video signals from your computer to a monitor for video streaming or gaming.

Supports video resolutions up to 1920x1080@120Hz (1080p Full HD) including 720p and 1600x1200 for HD monitors or projectors. High quality materials and construction ensure a lifetime of dependable performance.

Item no. FSP2040
